Notes:

- Standard configuration ○ Optional configuration - no such configuration
- 1The fastest charging time is 5 minutes, with an increase in range of 130/200km. The data is sourced from Xiaopeng Laboratory, which is a 3C/4C version test vehicle based on G9 under specific conditions. The CLTC displayed range is obtained through experiments using the Xiaopeng S4 ultra fast
- 2The charging time of the batteries comes from the Xiaopeng Laboratory, which is tested under specific conditions based on the 3C/4C version of G9. The actual charging time is determined through experiments using the Xiaopeng S4 ultra fast charging
- 3The reverse charger with "V2L functions" needs to be purchased separately. Please log in to the official website of Xiaopeng Automobile, Tmall flagship store, direct sales
- 4The intelligent activation function of the charging ports needs to be obtained through subsequent OTA. In the early stage, it was only supported for use in Xiaopeng's self operated charging station. In some cases (such as low power consumption and energy-saving mode, when the right exterior 5 storage space includes the space occupied by the Xmart OS system:
- 6Among the currently delivered model series, the version with XNGP assisted driving function needs to be implemented in subsequent OTAs, and the vehicle delivery does not have all the functions; L is the abbreviation for Lidar, representing an
- 7The connection between the car end and the children's watch, which supports the "Mi
- 8-9 are original car products that can be purchased at Xiaopeng Automobile Mall;
- 8The zero pressure intelligent sleep mattress is used in conjunction with the sleeping space inside the car's large screen. The hardware includes: mattress storage box,
- 9 comfortable headrests can be adapted to the driver and passenger seats, as well as the
- 10The full car 28 acoustic units include: 18 Dana Confidence original audio, 2 driver's private acoustic units, 6 ultra-low frequency
- 11The content is provided independently by third-party platforms, and members can pay
- 12 mobile app virtual keys, non physical physical attachments; This function requires support from the phone model, system version, and Bluetooth version. The automatic unlocking function may have purchases and does not include non private purchases or vehicles used for operation.

*The vehicle configuration information is only applicable to the corresponding vehicle models produced within a certain production month, and the vehicle configuration information produced within different production months may also be different. The battery range and charging time are for reference only and may vary depending on actual usage. The configuration table is only for reference, and the actual situation should be based on the actual sales vehicles of the
